WITH CPNI REGULATIONS

The statement accompanying this certificate explains how the Company’s operating procedures ensure that it is in compliance with those rules.

OPERATING PROCEDURES FOR COMPLIANCE
WITH CPNI REGULATIONS

Every employee of NTS Communications, Inc. (the “Company”) has a duty to protect the confidentiality of customer proprietary information (“CPNI”), as defined in 47 U.S.C. § 222(f). A violation of the Company’s operating procedures will result in disciplinary action which may result in immediate dismissal without warning.

The Company provides both local exchange service and long distance telephone service. It is the Company’s policy to not use CPNI for any prohibited sales or marketing activity.

No Company employee shall disclose CPNI to any Company affiliate or other third party unless such disclosure is required by a lawful subpoena or is used for the following purposes: (1) to bill or collect payment for the Company’s services or (2) to protect the rights or property of the Company or its customers. A Company employee that receives or obtains CPNI for the purpose of providing any telecommunications service shall use such information only for such purpose, and shall not use such information for any prohibited marketing purpose.

A Company employee shall disclose CPNI only upon an affirmative request by the customer and only after validating that the person requesting the information is the person listed in Company records as the authorized contact for the account. For residential customers, the validation process includes asking the person requesting CPNI for the last four digits of the customer’s social security number and only disclosing the CPNI if the correct four digits are provided. No Company employee shall disclose CPNI to a person other than the customer unless the customer provides written authorization affirmatively requesting that the customer’s CPNI be disclosed to that person.

The Company keeps a record of all instances where CPNI is disclosed or provided to third parties, or where third parties are allowed access to CPNI (hereinafter referred to as “the

CPNI record”). An employee that discloses CPNI to a third party or allows a third party access to CPNI must add to the CPNI record the name and address of the third party, a description of the reasons for the disclosure of the CPNI, the specific CPNI that was disclosed, and any written authorization from the customer to disclose the CPNI. This record is maintained by the Company for a minimum period of one year.

All Company employees are required to sign a Confidentiality Agreement which obligates them to protect customer information. Employees are also required to sign a separate statement that they will comply with CPNI rules contained in NTS’ Business and Marketing Code of Conduct. Employees who regularly handle customer inquiries are subject to live monitoring to ensure compliance and as necessary receive periodic reminders via e-mail or direct instruction from a supervisor.

Should the Company make a decision to modify its prohibition on the use of CPNI for marketing purposes, it will notify all employees of any such modifications. Under no circumstances will CPNI be used for any marketing purpose until after the Company has sent customers the notices required by 47 C.F.R. § 64.2008 and received the customer opt-in or opt-out approvals required for such use of CPNI. If the Company changes its current policy and decides to use CPNI in an out-bound sales or marketing campaign, the Company will establish a system which meets the requirements of 47 C.F.R. § 64.2009 (c) and (d).
